| In the UK the Cello course is being trialled as a hybrid online/in person course as an ongoing development and is so far going well. The ESA trainers/instructors will be meeting soon for discussion on this topic.                                                                                                                                                                                                                                                                                                           |

| There is an unfortunate matter arising from a new Cello volume 1 recording made without the correct permissions. The ISA Cello Committee has requested that the recording be withdrawn until the matter can be resolved. Communication between the ISA Board and Alfred has been slow and has, so far been unsatisfactory in relation to the Cello Committee's questions being answered. It is unclear at this point how the situation will be resolved. This issue has wider implications for Suzuki publications as a whole. |
