PROJECTS
<p>The first Suzuki Accordion training course was held in Italy and was completed in December 2025. This course provided the Suzuki movement and the accordion community with newly certified Level 1 teachers recognised by the ESA.</p> <p>A Level 2 course is planned to begin soon, further energising the exciting development of the accordion.</p> <p>Several Suzuki Accordion Books are ready and tested. The first three books, accompanied by their professional audio recordings, have been submitted to Alfred Publishing following all required guidelines. The request for audio recordings was warmly received, and several committee members generously offered to perform and record these pieces.</p>
ITEMS FROM ISA ACCORDION STUDY GROUP
<p>All committee members contributed their expertise, shared resources and provided suggestions regarding the repertoire and the request for the publication and the preparation of audio recordings for the first books.</p> <p>Committee members also assisted in communications with Alfred Publishing.</p>
DEVELOPMENT OF ACCORDION IN ESA REGION
