Miscellaneous:

The training will be held in English. Please bring your own instruments!

Cellists are kindly requested to bring a spike holder to protect the floor.

We are delighted to welcome the teacher trainers from England, all three of whom studied in Matsumoto, Japan, and can therefore share their knowledge and many years of experience with us first-hand.

The first Suzuki book and its structure lay the foundation for good technique and the importance of

musical education for each individual.

In addition to teacher training for the participating teachers, group lessons will also be held with students from the Suzuki department of the Hof Symphony Orchestra Music School.
